### Personal Statement:

I'm an XR specialist with over 5 years of hands-on experience in Unity and I've had the privilege of collaborating with multidisciplinary teams on a variety of high-end productions, most recently at the University of Oxford.

My passion lies in the realm of XR technologies, where I love to blend creativity and technical skills to create immersive experiences. As I look to the future, I'm excited to continue pushing the boundaries of what's possible in virtual worlds. I'm eager to learn and bring my unique blend of skills to new challenges.
